Re: Immediate Solution for the San Jacinto River Waste Pits

Dear Mr. Miller,

As a resident of East Harris County, I feel it is necessary for the EPA and the responsible companies to immediately provide a permanent solution for the San Jacinto River Waste Pits. Enough time has passed and the EPA decision keeps getting pushed back further and further. I support the immediate and rapid solution of placing a permanent cap on the waste pits. Please do this now for our health and our future.

Sincerely,

(b) (6)
